

## THE GOLDEN TREASURE

Once upon a time there was a pirate called Blackbeard. He lived on a ship called the Jolly Roger. He and his crew were trying to find some treasure. They sailed the seven seas and went to every island they could see but the treasure was not there. One day the lookout saw an island that no pirate crew had been to. It was called Skull Island. To get to it they needed to cross some sharp rocks. They went left and right and suddenly they saw a rock right in front of them. They just made it through and then turned and sailed straight to Skull Island. However when one of the crew looked behind, he saw another pirate ship called the Buccaneer. They were not scared so they kept on sailing but when they got to the island The Buccaneer had come closer. They split up into five groups. It was a very big island. Blackbeard had a map of the island and following this closely they suddenly saw the treasure. It was on the highest mountain. Suddenly the enemy crew caught up. The only thing they could do was to fight. Blackbeard sneaked out of the fight and began to climb the mountain. When he reached the top, the other captain had arrived. They fought but Blackbeard won, so he got to keep the treasure and live happily ever after.
