HOW TO CUSTOMISE SCHOOL STREAM NOTIFICATIONS

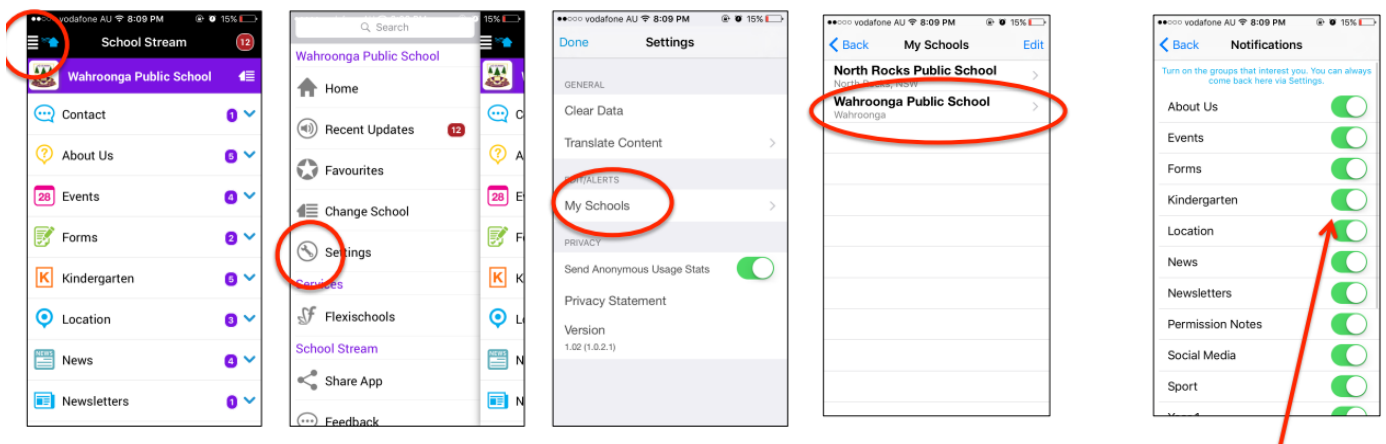

Wahroonga Public School encourages families to download the **free School Stream app** to stay up-to-date with notifications and news from the School.

The **School Stream app** is an important communication tool between Wahroonga Public School and our parent / carer community, alongside our weekly online newsletter, *The Bush Telegraph*.

Please download the School Stream app to your phone. You can sign up to the newsletter via our website.

To make the most of School Stream, have a play with the settings. Here, you can select which 'categories' to receive push notifications for, and which to ignore. This can save the nuisance of irrelevant notifications coming through to your phone. Follow the instructions below to customise your notifications:

- 1) Tap on the four horizontal lines to bring up a menu screen
- 2) Tap on the spanner logo, labelled 'Settings'
- 3) Tap on 'My Schools'
- 4) Tap on 'Wahroonga Public School'
- 5) Select which categories to receive notifications for – eg, 'Kindergarten 2021' and 'News / Alerts / Information'.

When the School sends out information under these categories, you will receive a notification on your phone.

If your child is away sick, School Stream is also an easy way for you to let the School know of student absences.

Thank you for your partnership with us.

Alison Filipic
Principal
Wahroonga Public School
